

**Upper Peninsula Sportsmens Alliance**

P.O. Box 54

Quinnesec, MI 49876

9/12/14

Sept 3, 2014

The Upper Peninsula Sportsmen's Alliance strongly opposes the use or presence of drones in areas being actively hunted at any time. The use of drones for observation of wildlife or harassment of hunters is unacceptable. The tendency of so called sportsmen to use technology to replace hunter skills has sent in improper message to the hunting fraternity. We will never be able to the days before cameras and timers, automatic feeders and the other modern day inventions which have changed our sport but we have the opportunity now to prevent another one, which would have even greater implications from entering the field. We, the Upper Peninsula Sportsmen's Alliance which represents fifty organizations and thirty thousand individuals request passage of SB 926 and SB 927.

Thank You
